

**GST-Policies, Perspectives and Practices**  
**(An Industry Oriented Programme)**  
**[November 15-16, 2018]**

**Dr K Trivikram : Programme Director**  
**Dr Usha Nori & Dr Sandeep Kumar : Programme Coordinators**

### **Programme Overview**

Among all the reforms in India, the Goods and Services Tax (GST) is the biggest tax reform since independence and with the passage of the Constitutional Amendment Bill by the Rajya Sabha, the eco system has set in motion for the introduction of GST from July 2017. Essentially, the \$2.4-trillion Indian economy has made a bold attempt to transform itself by removing internal tariff barriers and collapsing 17 central, state and local body taxes into a single GST. Thus the GST marks the economic integration of India, with a wakeup call as *One Nation, One Tax, One Common Market*.

Of late GST has generated much interest and has the potential to help in increasing the ease of doing business in the country, its impact is felt not only by the finance/tax functions of a company but across all the functions of the company including legal, IT, operations etc, adding value in the supply chain for the MNCs, Corporate Sector, Public Sector, SMEs down to the Start-Ups.

In this backdrop, it is imperative for the Industry, Business and the Services Sector to update and understand the key impact areas arising out of post implementation of GST and firm up the important action points to ensure a smooth transition into this new regime.

The two day industry-oriented program will invite thought provoking, conceptual and empirical contributions from leading practitioners from the Industry, business and services, policy makers and academicians, to handle sessions and bring out a practical perspective to post implementation of GST aspects.
