A Three day Hands - on Management Development Programme on

ETHICAL HACKING , CYBER SECURITY & CYBER LAW

May 23 - 25, 2018

An IPE Learning Product Leading by DISTINCTION

Programme Director

A. Rakesh Phanindra

Introduction

In today's global, digital world, data rule. Safeguarding intellectual property, financial information, and your company's reputation is a crucial part of business strategy. Yet with the number of threats and the sophistication of attacks increasing, it's a formidable challenge. Companies that understand the value that security brings to the business also ensure that they have a comprehensive strategy in place and that they have the processes and procedures to back up their vision. The guiding principles for strategy are driven, in large part, by their data.

Securing vital resources and information in the network is the most challenging feat for system enterprise. As business has migrated to the digital world, criminals have, too. What has emerged is a sophisticated criminal ecosystem that has matured to the point that it functions much like any business management structure, quality control, offshoring, and so on. While the hacking skills can be used for malicious purposes, this programme provides you how to use the same hacking techniques to perform a white-hat, ethical hack, on your organization. You leave with the ability to quantitatively assess and measure threats to information assets; and very good awareness stuff along with appropriate live demonstration also will be the part of this three day hands-on training programme on "Ethical Hacking, Cyber Security & Cyber Law" at Institute of Public Enterprise(IPE), Hyderabad..
