As I entered the portals of IPE, my mind was clouded with thoughts – all centred on what was in store for me. Within a few weeks, much to my joy, I realised I was having a fair share of fun along with learning experiences.

The camaraderie at the hostel, my active role in academic and non academic events during my MBA tenure, not forgetting my mentors’ and teachers’ guidance – all helped in building my confidence and shaping my personality.

All along I held on to this philosophy – ‘Live in the moment’ and this truly made my time spent at IPE a thoroughly enjoyable one.

IPE has been instrumental in defining who I am today. Right from the faculty to the infrastructure, there has always been support and guidance. It has provided a platform for holistic development - to pursue extra curricular activities and in becoming a management professional.

IPE has been one of the best experiences I’ve had in my life. The best thing about IPE is the Faculty, who constantly push us to be the best version of ourselves. It has always been a pleasure to represent and win accolades for our beloved institution at many state and national level events. None of this would have been possible without the support of our faculty. Personally, I have thoroughly enjoyed all my days in IPE. All the skills I picked up in IPE helped me land in a better spot not only in my career but also in my life. I strongly feel and believe IPE will continue to help many more aspiring management professionals.

For us the game changer in the IPE ecosystem was the support and encouragement we got from faculty members to realise our potential. Besides a rigorous curriculum the multiple club activities fostered in us a competitive spirit, peer learning and coping with setbacks. We also got the chance to host various quiz events as a part of the club activities which gave us a lot of confidence. While we came second in the Tata Crucible in 2018, a high point in our career, we look forward to two girls from IPE besting us.

My journey with IPE has been a roller coaster ride with lots of learning opportunities. I was one of the privileged students to have represented the college at various conferences. Research and practical exposure makes you a better person to face the challenges of the corporate world.
