ALUMNI SPEAK

Senior Analyst - Talent

Hyderabad

As I entered the portals of IPE, my mind was clouded with thoughts – all centred on what was in store for me. Within a few weeks, much to my joy, I realised I was having a fair share of fun along with learning experiences.

The camaraderie at the hostel, my active role in academic and non academic events during my MBA tenure, not forgetting my mentors' and teachers' guidance – all helped in building my confidence and shaping my personality.

All along I held on to this philosophy – 'Live in the moment' and this truly made my time spent at IPE a thoroughly enjoyable one.

Kavyasree Kolluru
HR Analyst, Deloitte, USI,

IPE has been instrumental in defining who I am today. Right from the faculty to the infrastructure, there has always been support and guidance. It has provided a platform for holistic development – to pursue extra curricular activities and in becoming a management professional.

For us the game changer in the IPE ecosystem was the support and encouragement we got from faculty members to realise our potential. Besides a rigorous curriculum the multiple club activities fostered in us a competitive spirit, peer learning and coping with setbacks. We also got the chance to host various quiz events as a part of the club activities which gave us a lot of confidence. While we came second in the Tata Crucible in 2018, a high point in our career, we look forward to two girls from IPE besting us.

Venkatesh Deekonda
Associate, Triniti Advanced

IPE has been one of the best experiences I've had in my life. The best thing about IPE is the Faculty, who constantly push us to be the best version of ourselves. It has always been a pleasure to represent and win accolades for our beloved institution at many state and national level events. None of this would have been possible without the support of our faculty. Personally, I have thoroughly enjoyed all my days in IPE. All the skills I picked up in IPE helped me land in a better spot not only in my career but also in my life. I strongly feel and believe IPE will continue to help many more aspiring management professionals.

ALUMNI SPEAK

Manoranjan Singh

Senior Executive – Sales & Marketing at Naukri.com

My experience at IPE fundamentally taught me - "It's the fastest bird gets the worm rather than the early bird gets the worm". At IPE, I met people from different fields, cultures and experiences. The cases and discussions by the professors helped me think as an entrepreneur, loaded with practical application. I got an opportunity to manage the marketing, social, and sports club and trust me these experiences nurtured my personality and are now helping me in my professional life. Regular feedback from professors and experiences of seniors helped to crack my first GD and interview ultimately leading to my first job.

Rishabh Nandi

Director & Founder – TryTrabby (tourism website) and Winking Brain LLP

I chose IPE as most of the faculties were PhDs, which was a great investment. The curriculum, infrastructure, and faculty are exemplary. The co-curricular and extra-curricular opportunities taught us to deal with on-ground activities and management. IPE offered opportunities to organize events such as Box of Kindness, National level annual fest Kurukshetra, and coordinated Strength Wars. Furthermore, I studied in a well-equipped classroom, trained at the gym, had healthy and homely food at the canteen, conducted activities in the campus, played sports and the list goes on. The college gave me many experiences and I lived the moment at IPE.

Harsha Sheelam

Pursuing PhD in Marketing and Strategy in IBS Hyderabad, IFHE University

I pursued PGDM Marketing and developed an interest in research. The faculties helped me understand research better. Eventually, I cleared UGC-NET for Assistant Professor using the syllabus and books of IPE. My inclination towards writing research papers was due to IPE the SIP and LTP. The curriculum and pedagogy of the program is sparingly done in other colleges. Learning something new always attracted me and during my stint at IPE I developed new skills and understood my untapped potential. Apart from academics, I had the opportunity to participate in sports, extra-curricular activities, conferences and this helped me add more feathers on my cap.

Summer Internship Project

An internship enables a student to gain first-hand exposure of working in the real world. It also allows students to connect the skill, knowledge, and theoretical practice they learnt from the classroom. Internships provide a nice learning curve for students with little experience in the professional world. A practical work background carries a major significance when attempting to enter the job market.

To facilitate our students, we provide an excellent internship opportunity at the end of the third trimesters. The students of various two-year post-graduate programmes at IPE undertake a 6 to 8 week internship program as a study at a commercial corporate, consultancy or government organization. This internship enables the students to gain first-hand exposure to working in the real world, that one internship could be the difference between winning a job opportunity or losing it.

At the end of the 8-week internship, students are required to prepare a project report and evaluation also will be done. We provide continuous guidance by the faculty and mentors. Few best-performed students may have a scope to get a pre-placement opportunity at the end of their internship.
